DE LA SALLE UNIVERSITY

Checklist A

Research Ethics Checklist for Investigations involving Human Participants

This checklist must be completed AFTER the De La Salle University Code of Research Ethics and Guide to Responsible Conduct of Research has been read and BEFORE gathering data. The University Code of Research Ethics is available at http://www.dlsu.edu.ph/offices/urco/forms/URCO-Code-of-Research-Ethics_August2011.pdf

NOTE: This checklist is completed after the research proponent fills out the General Checklist Form.

Only answer this Checklist if you answered YES on question 1 of the General Checklist.

Researcher Details	
Students	Dionisio, Geryco Eugynn Oliquino, Alfred Bernabe Ranjo, Joshua Aaron Puelong Silverio, Gwyneth Patricia Alysson
Thesis Adviser	Ryan Samuel Dimaunahan
Department/College	Software Technology Department/ College of Computer Studies
Proposed Title of the Research	Development of a Game-Based Learning Environment for Senior High School Precalculus following an Outcomes-Based Methodology
Term(s) and academic year in which research project is to be undertaken	Term 3 of AY 20-21 to Term 1 of AY 21-22, and Term 3 of AY 23-24

Provide a brief description of the data collection procedure to be undertaken in the research:

Each of the participants will have a testing session with the researcher(s). These sessions will take about 1-2 hours and will take place through an online communication platform such as Google Meet or Discord. During these sessions, the participants will first take a 30-minute pre-test, then play the game for a maximum of 1 hour, then take a 30-minute post-test, and finally, answer a questionnaire to provide feedback about their experience playing the game.

		Form No.: 2.03
		Version No.: 1
		Effectivity Date: July 2016

The following should be attached to the checklist:

- A copy of the informed consent form to be used in the study.
- A copy of the instrument/tool that will be administered to the participants.
- If applicable, a copy of the letter seeking permission to collect data from participants who are under the supervision of an agency, institution, department, or office.
- If applicable, a copy of the parental consent form for participants below 18 years old.

The following items refer to important ethical considerations in the conduct of research with human participants. Provide a check for the appropriate answer to each question.

Source of data

Please check all that apply:

	1. New data will be collected from human participants	
	If you checked this item, how will the new data be gathered? Please check all that apply.	
		Experimental Procedures/Intervention/ Treatments
		Focus Group
		Personal Interviews
	✓	Self-administered Questionnaire
		Researcher-administered Questionnaire
	✓	Internet survey
		Observation
	Telephone survey	
	Others, please specify:	
	2. Pre-existing data from human participants, i.e., from a dataset	

Only answer if new data will be collected (item 1 above)

Sampling Details

Number of Participants/Subjects	10 - 20 Participants
Location where the participants will be recruited/ where subjects will be obtained?	Online
How long will the data collection take place?	1 Months

Who will perform the data collection?	The researchers will perform the data collection through Google Forms survey
Location(s) where data collection will take place	Online (Google Forms)
What procedures will be employed to ensure voluntary consent from participants?	An informed consent form for the parent and the student will be sent to confirm their voluntary participation for the data gathering.
Data Retention	
How long will data with participant identifiers be kept after the publication of the first paper from the project?	Data with participant identifiers would not be kept after the publication of the first paper from the project
How long will anonymized data be kept after the publication of the first paper from the project?	Indefinitely. Apart from anonymization, data would also be summarized.
Procedure for Informed Consent	
How will informed consent be recorded? (check all that applies) Reminder: please attach informed consent that will be used in the study	<input type="checkbox"/> Written Consent <input type="checkbox"/> Audio-recorded Consent <input checked="" type="checkbox"/> Online/Email recorded Consent <input type="checkbox"/> Others, please specify:

If you will not obtain a recorded informed consent, answer the questions that follow:

Why does the waiver of informed consent not pose a threat to the welfare and rights of the participants?

Why is recording an informed consent not practical for the proposed study?

	Yes	No	Not Applicable
1. Will the research involve students who will be receiving course credits for their participation? If YES, please attach a copy of the consent form and a summary of the debriefing process that will help participants understand how their participation in the research has provided a relevant learning experience to the crediting course.			✓
2. Does the study involve participants below 18 years old or those who are unable to give their informed consent? If YES, please attach a copy of the parental consent form.	✓		
3. Is there a possibility that the research can induce physical and/or psychological harm to the participants? Will they experience pain or some discomfort as a result from their participation in the research? If YES, please attach an acceptable argument that outlines the benefits of doing the research and how they outweigh the cost of harming the participants.		✓	
4. Will the participants be deliberately falsely informed or made unaware that they are being observed? Will they be misled in a way that they will possibly object to or show unease when told of the real purpose of the study? YES, please attach an acceptable argument that outlines the benefits of doing the research and how they outweigh the cost of harming the participants.			✓
5. Will the research involve the discussion of, or questions on, sensitive topics (e.g. sexual activity, substance abuse, or mental health)?			✓

10. Is there a possibility for groups or communities to be harmed by the dissemination of the research findings? If YES, please attach a description of procedures to ensure the anonymity and confidentiality of the research findings.		✓	
11. Will the results of this study have a commercial value? If yes, do you intend to apply for a patent for the output of this research? Please check: <input type="checkbox"/> Yes <input type="checkbox"/> No		✓	

FOR PROPONENTS WHO WILL GATHER NEW DATA ONLY, PLEASE STOP ANSWERING.

Use of Pre-existing Data collected from Human Participants		
Indicate the dataset from which the data for the study will be sourced		
Is the data publicly available, i.e., the access to which does not necessitate an approval process?		Yes Please indicate where the dataset is available:
		No Please indicate/attach the approval authority for access:
Was the original dataset originally collected for the present study's purpose?		Yes Please attach the Consent Form used in the original study.
		No Please attach the Information Collection Statement (i.e., the statement given to informants providing them with the rationale for the collection of specific information).

Does the original data set contain sensitive data, that is information that an individual would not likely want to be disclosed publicly, e.g., data on sexual activities, substance use?	Yes Please describe the type of sensitive data to be used in the present research:
	No
Does the original dataset have personal identifiers?	No <i>(This means that neither the researcher nor the participant provided any personal identifiers)</i>
	Yes, specifically: _____ Direct (<i>i.e., the participant provided personal details like name and address</i>) _____ Indirect (<i>i.e., the participant was given a respondent code to make the participant identifiable</i>)
Will new data be collected and analyzed along with data from the existing dataset?	Yes Please answer questions on page 3-5.
	No
